The Anna e Alex ornaments are handmade with great care and passion. Slight variations in color or form should be held in high regard as signs of the quality of artistic handicraft.

How to take care of the Anna e Alex ornaments  
 The ornaments cannot be washed with water or any other liquid substances. In case the fabric is soiled, it can be carefully cleaned with the tip of a cotton swab lightly sprayed with a dry cleaning product. Do not spray product directly on the ornament.  
 In order to protect the SCS silver components, store ornaments in the Anna e Alex fabric packaging. If needed components can be polished using a silver cleaning cloth.  
 The cotton designs of the Arte collection ornaments cannot be dipped in water. If soiled, the cotton elements can be carefully cleaned with the tip of a cotton swab lightly sprayed with water.

**LA COLLEZIONE ARTE**

Per questa nuova collezione l'estro creativo delle due designer italiane trae ispirazione dal mondo dell'arte e delle sue numerose espressioni. Cornici in argento brunito o bianco racchiudono disegni firmati Anna e Alex, realizzati su cotone con tecnica di laceratura a freddo. Passamenterie, gocce di giada colorate o perle completano gli ornamenti.  
 Le prime linee della collezione Arte: Marco Polo, Seduzione Deco, Life is Art e Make a Wish, giochi ornamentici e forme che esaltano paesieri, concetti, e magie naturali.
